

**Amendments to the Claims:**

This listing of claims will replace all prior versions, and listings, of claims in the application:

**Listing of Claims:**

Claim 1 (canceled)

Claim 2 (currently amended): ~~The method of claim 1~~ A method of controlling at least one of a presentation format and a behavior of a web page of a web application comprising:  
in response to a request from a first web application having a first web page having a first presentation format and a first behavior, the request specifying a properties file comprising at least one setting, generating a second web page, by a second web application external to the first web application, the second web page having a second presentation format and a second behavior, the second web page being generated in accordance with the at least one setting, wherein the at least one setting controls, at least in part, at least one of the second presentation format and the second behavior, wherein the at least one setting comprises at least one setting selected from the group consisting of a graphics setting, a style sheet setting, and a type setting, wherein the at least one setting causes the second presentation format and the second behavior to be substantially similar to the first presentation format and the first behavior, respectively.

Claim 3 (currently amended): The method of claim [[1]]2 further comprising:

first invoking the first web application to provide a first set of data in the first web page having the first presentation format and the first behavior;

second invoking, from the first web application the second web application to provide a second set of data, wherein ~~said generating generates~~ the second web page ~~comprise comprising~~ at least a subset of the second set of data having, at least in part, at

least one of the second presentation format and the second behavior in accordance with the at least one setting.

Claim 4 (currently amended): The method of claim [[1]]<sub>2</sub> wherein the second web page is displayed within the first web page.

Claim 5 (currently amended): The method of claim [[1]]<sub>2</sub> wherein the second web page is displayed outside the first web page.

Claim 6 (canceled)

Claim 7 (canceled)

Claim 8 (canceled)

Claim 9 (currently amended): The method of claim [[1]]<sub>3</sub> wherein the at least one setting comprises a print enabled setting to cause a print button to be displayed to allow the second set of data to be printed.

Claim 10 (canceled)

Claim 11 (currently amended): ~~The apparatus of claim 10~~ An apparatus for controlling at least one of a presentation format and a behavior of a web page of a web application, comprising:

\_\_\_\_\_ a computer; and

\_\_\_\_\_ one or more computer programs, executed by the computer, for integrating web applications, for:

\_\_\_\_\_ in response to a request from a first web application having a first web page having a first presentation format and a first behavior, the request specifying a properties

file comprising at least one setting, generating a second web page, by a second web application external to the first web application, the second web page having a second presentation format and a second behavior, the second web page being generated in accordance with the at least one setting, wherein the at least one setting controls, at least in part, at least one of the second presentation format and the second behavior, wherein the at least one setting comprises at least one setting selected from the group consisting of a graphics setting, a style sheet setting, and a type setting, wherein the at least one setting causes the second presentation format and the second behavior to be substantially similar to the first presentation format and the first behavior, respectively.

Claim 12 (currently amended): The apparatus of claim [[10]]11, wherein said one or more computer programs is also for:

first invoking the first web application to provide a first set of data in the first web page having the first presentation format and the first behavior;

second invoking, from the first web application, the second web application to provide a second set of data, wherein ~~said generating generates~~ the second web page ~~comprisescomprising~~ at least a subset of the second set of data having, at least in part, at least one of the second presentation format and the second behavior in accordance with the at least one setting.

Claim 13 (currently amended): The apparatus of claim [[10]]11 wherein the second web page is displayed within the first web page.

Claim 14 (currently amended): The apparatus of claim [[10]]11 wherein the second web page is displayed outside of the first web page.

Claim 15 (canceled)

Claim 16 (canceled)

Claim 17 (canceled)

Claim 18 (currently amended): The apparatus of claim [[10]]12 wherein the at least one setting comprises a print-enabled setting to cause a print button to be displayed to allow the second set of data to be printed.

Claim 19 (canceled)

Claim 20 (currently amended): ~~The article of manufacture of claim 19~~ An article of manufacture embodying one or more instructions executable by a computer to perform a method of controlling a presentation format and a behavior of a web application, the method comprising:  
\_\_\_\_\_ in response to a request from a first web application having a first web page having a first presentation format and a first behavior, the request specifying a properties file comprising at least one setting, generating a second web page, by a second web application external to the first web application, the second web page having a second presentation format and a second behavior, the second web page being generated in accordance with the at least one setting, wherein the at least one setting controls, at least in part, at least one of the second presentation format and the second behavior, wherein the at least one setting comprises at least one setting selected from the group consisting of a graphics setting, a style sheet setting, and a type setting, wherein the at least one setting causes the second presentation format and the second behavior to be substantially similar to the first presentation format and the first behavior, respectively.

Claim 21 (currently amended): The article of manufacture of claim [[19]]20 wherein the method further comprises:

first invoking the first web application to provide a first set of data in the first web page having the first presentation format and the first behavior; and

second invoking, from the first web application, the second web application to provide a second set of data, wherein ~~said generating generates~~ the second web page ~~comprises~~comprising at least a subset of the second set of data having, at least in part, at least one of the second presentation format and the second behavior in accordance with the at least one setting.

Claim 22 (currently amended): The article of manufacture of claim ~~[[19]]~~20 wherein the second web page is displayed within the first web page.

Claim 23 (currently amended): The article of manufacture of claim ~~[[19]]~~20 wherein the second web page is displayed outside the first web page.

Claim 24 (canceled)

Claim 25 (canceled)

Claim 26 (canceled)

Claim 27 (currently amended): The article of manufacture of claim ~~[[19]]~~21 wherein the at least one setting comprises a print-enabled setting to cause a print button to be displayed to allow the second set of data to be printed.
